

Mulan Lau | Mobile Developer

(808) 366-2309 | work.mulanlau.com | perfectlittlemiss1010@gmail.com

Summary

I am constantly learning, growing, and improving in my journey as a mobile developer. I have experience working remotely to build and improve native iOS and Android apps using Swift, Java, and Kotlin. I enjoy the business side of mobile development as well as the technical one and have experience converting technical jargon into conversations with people from nontechnical backgrounds.

Experience

Android Developer – Interapt

- Resolve bugs caused by legacy code
- Develop new features meeting requirements in spec docs and storyboards
- Fix and improve existing code
- Create release builds for testing
- Collaborate with iOS developers to ensure a consistent UX across platforms

Lab Specialist – Full Sail University

- Research coding errors
- Communicate problem solving steps and processes for finding solutions to bugs and errors

Mobile Developer – Unannounced NASA Project

- Performed QA testing on mobile devices
- Wrote detailed bug reports
- Created iOS builds from Unity
- Communicated areas of potential app improvement for mobile users

Projects

Tennis Match – work.mulanlau.com/tennis-match

A social app to help tennis players find nearby tennis partners.

Yearbook – work.mulanlau.com/yearbook-app

A communications app that allows users to save and view their contacts with an emphasis on the contact image over the contact's name.

READ – work.mulanlau.com/read-app

A WearOS app that encourages users to read and allows users to keep track of their reading time with minimal distractions.

Family Recipes – work.mulanlau.com/family-recipes

A recipe app that allows users to browse recipes created by other users and add their own family recipes.

Nori's World – perfectlittlemiss.github.io/Nori-s-World

Nori's World is a responsive website built in HTML, CSS, Sass, Bootstrap, and JavaScript.

Languages:

C#	SQL & SQLite
Swift	JSON
Java	XML
Kotlin	HTML & CSS
JavaScript	Sass
Python	

Technical Skills:

Agile	MS Office
Git	Google Suite
GitHub	
Firebase	
Adobe XD	
Adobe AI	
Information Architecture	
Data Visualization	

Education

BS – Mobile Development
Full Sail University
2018-2020
Valedictorian
Advanced Achievement Award
